SINCE 1960

History of Aloha

WE ARE CELEBRATING OUR 6TH DECADE OF BUILDING THE BEST PONTOON BOAT IN THE UNITED STATES!

FROM WACO CRAFT TO ALOHAPONTOONS.COM

Our longevity since 1960 has allowed our company to lead the pontoon industry with many important innovations throughout the years. We have earned a reputation for “design uniqueness.” We were the first company to build an upper sundeck and the first to build a sun cushion enclosure over the outboard engine and fuel compartments, a huge innovation at the time. This design is now found on virtually all of our competitor’s pontoon boats.

Our design leadership and superior quality product have now become a new model year tradition. We have always demonstrated very prompt, friendly and helpful service. We refer to it as “southern hospitality.” We receive many calls throughout the year for a small part needed on a vintage 1960s model Aloha pontoon that now has its 3rd outboard engine installed on it. These are some of the reasons we have been fortunate enough to hold the honor of being the oldest pontoon builder in the south and one of the oldest pontoon manufacturers in the united states.

We believe in offering the customer what they need and want. Many customers choose our brand because of the variety offered throughout the Aloha line. This year we are proud to introduce 16 Aloha pontoons to choose from. These models are presented with two series brand names “Paradise and Tropical Series.” Each customer also has various colors and options that can be added to any of the 16 Aloha models.

We believe it takes years of boat manufacturing to build a superior product. We have chosen a path to produce a luxury pontoon boat. While all of our pontoon models are luxurious, it is specifically showcased with our paradise series line of Aloha pontoons. We are a winner of the pontoon deck boat magazine “best built” pontoon in the united states. We have many features on our pontoon boats that set us apart from the competition. Our “design uniqueness” truly gives Aloha the history, quality and elegance that set us apart from the competition.

“WE WOULD RATHER EXPLAIN THE PRICE, THAN APOLOGIZE FOR THE QUALITY.”

“ WE BUILD THE BEST PONTOON BOAT IN THE UNITED STATES. IT TAKES TIME TO PRODUCE A SUPERIOR PRODUCT. OUR DESIGN, QUALITY, AND ATTENTION TO DETAIL INCLUDING PROMPT SERVICE HAS PAVED THE WAY IN THE PONTOON BOAT INDUSTRY SINCE 1960. ”

A woman with blonde hair, wearing a grey dress and sunglasses, is leaning over the side of a blue pontoon boat. She is high-fiving a black dog that is standing on its hind legs. The dog is wearing a pink collar. In the background, other people are visible on the boat, including a young girl in a purple life vest and an older man in sunglasses. The boat is on a body of water under a clear blue sky.
