ABOUT

OUR COMPANY WAS FOUNDED ON MARCH 7, 1960, INTRODUCING OUR FIRST PRODUCT, WACO CRAFT ALUMINUM JON BOATS. THE JON BOAT HAS BEEN A STAPLE IN BOATING AND THE OUTDOORS FOR GENERATIONS.

HOWEVER, WITH ADVANCEMENTS AND GROWING DEMANDS OF PERFORMANCE, THE EVOLUTION OF OUR ALUMINUM BOAT STARTED CHANGING THROUGHOUT THE EARLY YEARS OF OUR PRODUCTION. IN 2011, WE INTRODUCED EDGE BOATS. FEATURING A HIGH PERFORMANCE NIMBLE ALUMINUM BOAT WITH LONGITUDINAL RIBS, AND A RUGGED DESIGN, WE CHANGED THE ALUMINUM BOAT INDUSTRY WITH OUR DESIGN.

WE HAVE CONTINUED TO ADVANCE AND PUSH THE LIMITS TO KEEP US ON THE LEADING "EDGE" OF ALUMINUM BOAT TECHNOLOGY!

The original Edge Duck Boat.
Featuring a corrugated bottom, 8
degree modified vees, and reverse
chines, this boat has performance you
can count on.

Rigidly built with longitudinal stringers
and a narrow timber hunting beam,
this hull is safe as well as rugged.

FEATURES

ALL WELDED CONSTRUCTION
.090 GAUGE ALUMINUM,
8 DEGREE V HULL
HEAVY DUTY GUNWALE
TIMBER BEAM

LONGITUDINAL RIBS
NAVIGATION LIGHT
MID DECK WITH STORAGE
BASE COLOR FINISH.

SIZES

DIAMONDBACK TRANSOM/ .090, .100, AND .125 HULL THICKNESS.

EDGE
EDGEDUCKBOATS.COM

High Performance Surface Drive. Just like the name implies this boat is built for those hard-to-reach places.

Featuring a smooth bottom, 8 degree V, and reverse chine. This hull has a performance "pad" as well as center keel for excellent turning performance on a mud hull. This design will run as shallow as your engine is capable of while giving you outboard-like performance.

Rigidly built with longitudinal braces while you plow through shallow water. Designed safety in mind.

AVAILABLE IN 550, 550DB, 553, 553DB, 656, AND 656DB.

At the very origin of Edge Boats lies the Waco Jon Boat. Over time, the market has changed, and Jon boats are now produced in numerous designs and sizes.

However, there is still a need for a good running flat bottom. We took over 65 years of jon boat experience and put it together with the modern advancements of Edge Boats to bring you a shallow drafting, smooth riding, performance flat bottom that will turn on a dime.

Rigidly built with longitudinal braces and similar to our modified vee hulls.

FLAT BOTTOM SERIES

EDGE DUCK BOAT APPAREL

PLEASE VISIT WWW.EDGEDUCKBOATS.COM FOR MORE COLORS, OPTIONS, AND THE LATEST APPAREL

Waco Mfg Inc was founded March of 1960 in North Little Rock, Arkansas by Charles F Cox and WJ Waymack.

Our initial products were small Waco, flat bottom, fishing boats that some people referred to as car toppers or you could find them in the back of a pick up truck as well as creating Aloha Pontoons Boats.

Our experience evolved throughout the years!

**The Waco Brushwacker series was created in 1995.
This particular Waco aluminum boat was well advanced in the marketplace
and can still be found on the water!**

In 2011, we introduced a derivative of the Waco Brushwacker that has unique design characteristics as well as incredible performance with its modified vee design and reverse chine.

We have 65+ years of experience with the same family ownership that goes into the manufacturing of every Edge Duck Boat!

These boats are nimble through flooded timber and provide incredible performance with small to mid range horsepower options!

We continue to develop numerous new models. Please keep an eye on our social media, as well as our website for the latest and greatest aluminum boat on the market.

**Thomas F. Cox
President- CEO**

Our sister company, Aloha Pontoons has been building pontoons since 1960, the oldest pontoon builders in the south. We have earned a reputation for "Design Uniqueness".

Aloha Pontoons was the first company to build an upper sundeck and the first to build a sun cushion enclosure over the outboard engine and fuel compartments, a huge innovation at the time. This design is now found on virtually all of our competitor's pontoon boats.

We believe it takes years of boat manufacturing to build a superior product. We have chosen a path to produce a luxury pontoon boat. While all of our pontoon models are luxurious, it is specifically showcased with our Paradise Series line of Aloha pontoons.

We are a recent winner of Pontoon & Deck Boat Magazine "Best Built" pontoon in the United States. Aloha Pontoons have many features on our pontoon boats that set us apart from competition.

If you are interested in becoming an Aloha Pontoons dealer or would like any further information on our pontoon boats, please contact us at (800) 776-9226 or info@alohapontoons.com.
